

Carbine commercial deadbolts are commercial grade deadbolts that are rekeyable to suit most common keys AND restricted keys. They are superior quality at a great price. They are available in double cylinder AND cylinder & turn.

Features:

- Available in single cylinder (4010 Series) and double cylinder (4011 Series)
- 4010 Series has an internal thumbturn for easy operation
- Supplied with two spacing rings per lock to accommodate thinner doors
- 4011 Series has a concealed fixing
- Able to accept a wide range of restricted barrels
- Finishes of satin stainless steel, polished stainless steel, antique bronze and polished brass

Specifications:

- Suits 6 pin C4 keys
- Removable brass 6 pin PD-style cylinder
- Rose diameter of 65mm without the rosette or 70mm with the rosette that's supplied
- Suits doors with a thickness of 35mm to 45mm
