

DOOR SAVER

The Carbine Door Saver Plates are a next generation product. Here's why:

Carbine door saver plates simplify the process of repairing and protecting doors from attack.

Using a unique spacing ring the Carbine door saver plate allows you to cover different backsets using only one model.

The Carbine door saver plates also feature special drill locating holes to allow you to easily fit a Carbine latchguard over the plate. The Carbine door saver plates are also supplied with high security concealed screw fixings.

Features:

- All parts 100% stainless steel
- Latch is attached to the plate not the door allowing for a flush finish
- Supplied in a strong poly bag with easy to read label

Specifications:

- Includes 2 spacer rings per set with 60/70mm models
- Supplied in 1 piece for quick and easy installation
- Different models to suit 32, 35, 40, 45mm door thicknesses
- Strong 0.7mm plate
