

G A T E G U A R D

The Carbine Gate Guard is a next generation product. Here's why:

On most gates fitting a high security lock can be very difficult. The Carbine Gate Guard's unique design overcomes this problem, allowing you to fit the most secure deadlocks and deadlatches onto your metal or timber gate. The Carbine Gate Guard also has added protection against attack using protective flanges to shield your lock.

Features:

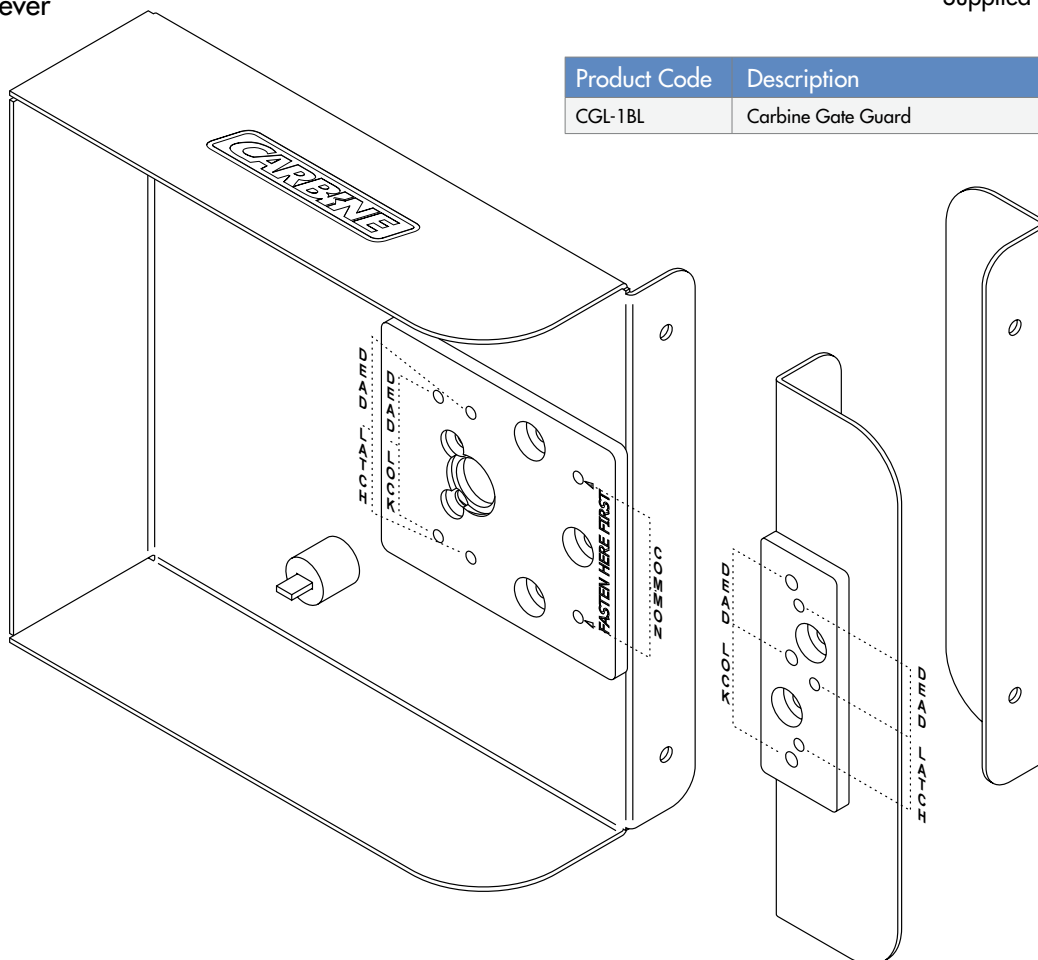

- Suits single or double gates
- Suits Colorbond™ fences up to 50mm frame
- Durable powder coated black finish
- Quick & easy fitting

Specifications:

- Strong 1.6mm steel plate
- Supplied with fixing screws
- 65mm backset (5mm allowance for gate frame offset)
- Accepts Lockwood deadlock models 303/355
- Accepts Lockwood deadlatch models 001, 002 & 002 lever

Supplied without deadlock
